Melbourne, 16 June 2008

Comverge Networks is officially launched.

Mr Peter Saglietti, Director, is pleased to announce the official launch of Comverge Networks. Telecommunications Integration Services Pty Ltd trading as PBNConnect has been rebranded and will now trade as Comverge Networks. In conjunction with the name change, the company will also have a new website www.comverge.com.au and new individual e-mail addresses. The ABN, branch addresses and phone numbers remain unchanged.

Whilst we are very proud of the fact that our company is a well-known leading independent systems integration business, Comverge Networks will represent a more focused and dynamic company. Creating Intelligent Networks is what we do. Using architecture of fibre optics we are able to deliver true Triple Play communications that meet the high demands of consumers today and into the future. Our expertise is a critical element that makes selecting solutions easier for our customers. We choose the right mix of products for your network. We approach the needs of each system differently and we are committed to adding value and building business prospects for our customers. The end result is a more efficient, cost-effective and reliable solution. It's all about peace of mind!

Comverge Networks - Background

Comverge Networks is a registered trademark and business owned and operated by Telecommunications Integration Services Pty Ltd. Since its founding in 1992, Comverge Networks (formerly known as PBNConnect) has built a reputation as an industry leader in fibre-optic network design, construction, installation and systems integration.

Comverge Networks' success is built on a foundation of innovation, experience and a reputation for creating intelligent networks to meet the ongoing telecommunications requirements of many industries.

Specialising in the delivery of full range of triple play products, (MATV, SATV, CATV, FTA, CCTV, VOD, VOIP, DATA, Medical, Security & Access Control Systems) over a FTTx PON based network, Comverge Networks is at the forefront of FTTx technology delivering solutions for Greenfield Developments, Resort-Style Gated Communities, Retirement and Independent Living Communities, Retail and Commercial Developments.
